

## ***Implementing and Managing Remote and Homeworking***

### **The Course**

An informative half-day workshop designed for managers implementing remote and homeworking

### **Aim**

To prepare managers to identify the challenges, and provide information and training in the management of remote and homeworking

### **Objectives**

At the end of the course delegates will:

- Have identified the demands and challenges of remote and homeworking
- Identified the challenges associated with a culture of presenteeism, and how to address these issues
- Gained an awareness of the ICT options available
- Be aware of what is required to work safely at home
- Have considered the planning and management of work in the context of remote and homeworking
